

AMENDMENTS TO THE SPECIFICATION

Please note that the page and line numbers referenced below correspond to the SUBSTITUTE SPECIFICATION filed on July 15, 2004.

Please delete the section from line 5 to line 10 on page 7 and insert the following replacement section with markings to show the changes:

--

When M and M¹ are other than hydrogen, that is, define the “augmented extended monomer,” then

M is defined as $[[W^1R^2-:]] \underline{WR^2-}$ and

M¹ is defined as $[[W^2R^3-:]] \underline{W^1R^3-}$,
